

## Contortionists

The Republic Tigers

If we concentrate on a face  
Could we conform to it  
And be free like contortionists  
Who are free to bend around machines

Turn this place around  
To first when light came  
And all was right  
Can we bend that way  
Can we calculate  
How to be at peace inside  
And keep color

If we concentrate  
We can calculate  
Like contortionists  
Bend around this place  
If we concentrate  
Can we calculate
