

Weatherbeaten

The Republic Tigers

My hands are crackin'
The blood won't run
The ice will keep it all inside
All we got left is just to pray
The newest lines
Runnin' on my face have found their place to lay
And now I know
We can't stay here
We gotta move
So we can counter-stimulate

Marching into the syncopated cold
It's orchestrated to play till we give up
And just grow old
We'll continue our pursuit on through the snow
Weather beaten we keep on keepin' on
It's all we know
'Cause I can see the lighthouse
We can see the lighthouse

My skin is slackin'
The pigmentation
Provin' life is on the line
Change the diet to better play
These games
They really do you in
When you're makin' up
Your own rules
We're thrown the pitches that curve
But we'll stand up tall
And live intimidating life
The coast will clear up
The sun will beat down on our chest
And we'll win the right to
Help our friends
With more than two tied hands and cold feet
We'll stimulate

Marchin' into the syncopated cold
It's orchestrated to play till we give up
And just grow old
We'll continue our pursuit on through the snow
Weather beaten we keep on keepin' on
It's all we know
Stimulate
Marchin' into the syncopated cold
It's orchestrated to play till we give up
And just grow old
We'll continue our pursuit on through the snow
Weather beaten we keep on keepin' on
It's all we know
Weather beaten
Weather beaten
We keep on keepin' on
It's all we know
'Cause I can see the lighthouse
We can see the lighthouse
