

Enemy's Enemy

The Restarts

History lesson we neglected to learn
Play with fire boy you gonna get burned
Covert operation training freedom fighters
Global war on terror is now ignited

My Enemy's enemy is one step ahead of me
Coz your morally blind
My Enemy's enemy is now my own enemy
Hypocrisy defined

A horrible depiction of the perfect irony
Mutilated bodies groaning in agony
Who's the freedom fighters and who's the terrorists
It's god against god the war of supremacists

We're all the victims but who takes the blame
It's a war of religion and capital gain
Oil and greed - commerce and creed -
A change in foreign policy is what we need
