

Mind Yer Own Business

The Restarts

They're not solving the poverty trap
Instead they're asking people to be rats
Fink on your neighbours its poor against poor
You get jealous when someone gets more
Mind yer business and watch yer back
you curtain twitching informant rat

Benefit rip off - give us a tip off
We're not playing that - so you can just fuck off

A nark a grass a lowlife fink
Your in the same boat but you're making it sink
Spouting libel down the hotline phone
Getting people evicted and tossed out of home
What kind of person does it take
To turn your neighbour over to the state
