

## New Way

## The Restarts

Why should we work for a pittance  
Why do we dance to their tune  
All you get is restrictions  
All you see in rack and ruin

Arbeit macht frei - to hell with the new way  
Roll on doomsday

More control is their solution  
But the grip don't tighten at all  
Petrifying our evolution, when its fucked  
How will it fall
