

Static

The Restarts

This scene gets so fucking static
It gets me gives me itchy feet
Gossip rumour get pathetic
Soap opera story line repeat

Set goals take control
Live life travel before I grow old
This town going down time to get on stop fuckin around

Fuck the scene and get me a jet plane
Been there done that now give me a break
I'm sick of the making babies
Settling down and dying jakies
When I get back nothing will change diluted by staying the same
.
