

Timewaster

The Restarts

Seems you had something different in mind
Didn't know you'd be wasting my time
So it never did materialise
Just a chance for you to fraternize
You're just an introverted chat room geek
You've been stringing me along all week
Ain't got the balls to show your face
Only in it for the thrill of the chase

Timewaster

You say you are looking for a bit of sleaze
But your just infected with this cyber disease
Now we know all your tell tale signs
Fabrications through a modem line
Dodgy profile identity
Far removed from reality
Looking through your pixelated guise
One day you'll finally realize
Timewaster - wasting my time
