

Victimization

The Restarts

On the road about your daily business
Mirror give you a certain kind of sickness
Day now sour fuck knows they take the piss

Dragging me down - got it in for you
Dragging me down - nothing better to do
Dragging me down - our sort ain't wanted
Dragging me down - just been sorted

Left to ponder what makes the old Bill tick
When you're legit enough to make you sick
Their attitudes they got a fucking problem
Any wonder people think so much of them
