

## Walk Away

### The Restarts

Now I see you think you're making sense  
Got no slack for your ignorance  
Get away as you're being a pest  
Got no time for your BS  
Yeah what ever and the same to you as you talk and try an tell  
me what to do  
Look for someone else to distress make my move and I exit left

All I did was walk away

It's a time and place that you exist  
Out of sync like a royalist  
Now I think its time we called it quits  
Got no software for your user bits  
You're a fake and a lousy git  
Don't know how you get away with it

All I did was walk away
