

## All I Need

The Rifles

I didn't knew the place to start  
But with you all the time I feel alive  
Then I fall into the white of your eyes  
You're all I need!

Girl, I drive you out at sea  
I didn't know how I feel  
To enrude them  
To enrude them ?

There's a light somewhere awaiting  
The way it spurrs another day  
When you feel the day is breaking  
And you now that I feel good

Girl, I drive you out at sea  
I didn't know how I feel  
To enrude them  
To enrude them ?
