

I Could Never Lie

The Rifles

She don't know just what she does to me
somewhere deep inside
and it's not right to leave her not feeling right
And everytime I have her close to me
I know deep inside
But sometimes it's too hard for me to describe

'Tis in the morning
what a way to start the day
and it seems I'm good at making a sky grey
and I got the kit to cure it
but it's hard for me to say
and all my actions aren't enough
to stop all the rain

But I've never been the type
to tell her how I feel inside
So why can't she just see it in my eyes
all that I try to hide
I could never lie
I don't need to hear her say she's mine
I've had my heart remind me time after time

'Tis in the evening
took the smile upon her face
and it's all down to the things I'd never say
oh but they'd lose their meaning
if I told you everyday
still my actions aren't enough
to stop all the pain

But I've never been the type
to tell her how I feel inside
So why can't she just see it in my eyes
all that I try to hide
I could never lie
I don't need to hear her say she's mine
I've had my heart remind me time after time

Why can't she just see it in my eyes
all that I try to hide
I could never lie
I don't need to hear her say she's mine
I've had my heart remind me time after time
