

# Perfect World

the ring of fire

Everyone has a plan  
Everyone has demands  
One grain of sand makes a pearl  
I want a perfect world  
Making promises is easier  
That to fulfill  
A miracle will last forever

We are the people of the planet  
We all imagine a perfect world  
The kind of place where everything's alright  
We are connected, we are troubled  
So many answers, still no cure  
Sleeping on dreams of a perfect world tonight

Why are you trying to hide  
We're all the same inside  
So many flags are unfurled  
I want a perfect world  
All our life is only just a feather in the wind  
A miracle will last forever

We are the people of the planet  
We all imagine a perfect world  
The kind of place where everything's alright  
We are connected, we are troubled  
So many answers, still no cure  
Sleeping on dreams of a perfect world tonight
