Until the end of Time

the ring of fire

On a journey celestial
To a planet forbidden
All alone on a mission of hope
That's where I found you

Now forever you cast your spell of love on me And I will love you til the end of time Forever mine
Until the brightest stars fall from the sky

When galaxies die I'll stand by Our love will still survive

Whatever it takes I'll dedicate Into infinity

Until the end of time

I was lost in a shadowland Til I saw your light shining Mesmerizing my mind with your thoughts You were so beautiful

Now forever you, cast your spell of love on me I will love you til the end of time Forever mine Until the brightest stars fall from the sky

When galaxies die I'll stand by Our love will still survive

Whatever it takes I'll dedicate Into infinity

When galaxies die I'll stand by Our love will still survive

Whatever it takes I'll dedicate Into infinity

Until the end of time Until the end of time
