

Devil Woman

The Riot

Bad luck
My door
Sweet lady
Table
Evil eye
She cast
She's just a devil woman
Get you
Beware the devil woman
From behind.
Give me ring
On your hand
I can see
Planned
I drank the
Floor
Then I looked
Here for
She's just a devil woman,
With evil on her mind.
Beware the devil woman,
She's gonna get you from behind.
Moonlit night
Long black hair
Promised land
Tonight
To do
Promised land
I'm gonna lead you
To the promised land
Again
On the line
On the run
Take me by the hand
The promised land
I'm gonna lead you,
To the promised land.
The night
Tonight
On the
Promised land
I'll lead you to the promised land
