

# Fight Or Fall

## The Riot

Ride out  
The king he proclaimed 'cross the land  
Tonight we strike against the enemy to capture their flag  
Cry out  
The tears that they shed for their brave  
Tonight they ride with will, intend to kill who stand in their way  
Across the fields  
They march  
Their task must be done  
But in the end they know that this war must be won

Fight or fall  
In the name of the children  
Fight or fall  
In the name of us all  
Fight or fall  
We can never surrender  
Fight or fall  
In the night we stand tall

Rise up  
Your swords for the souls you must save  
Flashing of steel as your blades send them to their grave  
Ride out  
Ride proud from the battle where many have died  
And when the last is slain its into the distance we ride  
Across the fields  
We march  
Our task must be done  
But in the end we know that this war must be won

Fight or fall  
In the name of the children  
Fight or fall  
In the name of us all  
Fight or fall  
We can never surrender  
Fight or fall  
In the night we stand tall

Fight or fall  
In the name of the children  
Fight or fall  
In the name of us all  
Fight or fall  
We can never surrender  
Fight or fall  
In the night we stand tall

Fight or fall  
In the name of the children  
Fight or fall  
In the name of us all  
Fight or fall  
We can never surrender  
Fight or fall  
In the night we stand tall
