

# Running From The Law

## The Riot

Running from the law for something I did not do fearful of the  
lies fighting for the truth  
I can't let them catch me my life it will be done so when eveni  
ng comes I'll be on the run  
Running through the hills got no place to hide racing with the  
wind I got you by my side  
A fugitive chasing after destiny freedom never shines oh down o  
n me yeah  
Running from the law reaching for the sky never turn my back on  
shadows in the night running from the law  
Their sights are set on me I must keep up the pace I feel them  
getting near I won't give up the chase  
And when the morning comes if they're not at my door I'll keep  
myself alive running ever more  
Running from the law reaching for the sky never turn my back on  
shadows in the night oh running from the law oh oh  
Aaaah running from the law for something I did not do fearful o  
f the lies fighting for the truth oh  
A fugitive chasing after destiny freedom never shines down on m  
e yeah  
Running from the law reaching for the sky never turn my back on  
shadows in the night  
Running from the law running from the law running from the law
