

Running From The Law

The Riot

Running from the law for something I did not do fearful of the
lies fighting for the truth
I can't let them catch me my life it will be done so when eveni
ng comes I'll be on the run
Running through the hills got no place to hide racing with the
wind I got you by my side
A fugitive chasing after destiny freedom never shines oh down o
n me yeah
Running from the law reaching for the sky never turn my back on
shadows in the night running from the law
Their sights are set on me I must keep up the pace I feel them
getting near I won't give up the chase
And when the morning comes if they're not at my door I'll keep
myself alive running ever more
Running from the law reaching for the sky never turn my back on
shadows in the night oh running from the law oh oh
Aaaah running from the law for something I did not do fearful o
f the lies fighting for the truth oh
A fugitive chasing after destiny freedom never shines down on m
e yeah
Running from the law reaching for the sky never turn my back on
shadows in the night
Running from the law running from the law running from the law
