

Hi, Love

The Robot Ate Me

Standing up is the easy fight
Sitting down is violent
Sometimes the way to change
Starts with silence

Hi love, i need you to make it through
Hi love, what's all this without you

Hi love, i need you to make it through
Hi love, what's all this about you

Hi love, i need you to make it through
Hi love, what's all this about you

Hi love, i might not make it through
What's this life without you
