

I Like It Here

The Roches

I like it here don't wanna move
Just wanna stay here in this same old groove
No need for growth now or any adventure
No need to be shown how to pay attention or start my engine.
I like it here I like it now
Not over there where I had to kowtow

And I had to be present for those things in the past
That were truly unpleasant and over with at last.
I like it here don't wanna change
Not looking towards next year or back home on the range
I'm gonna glue my backside to The living Room wall
And I ain't gonna backslide I'm just not gonna play ball.
Cause I like it here don't wanna change
Just wanna stay here why is that so strange?
And if you were inside me then you would come to see
Things the way I do and you'd like it here too.
