

Missing

The Roches

By David Roche

He's not dead or alive

He's not off with some other guy

He's not lost track of the time

He's just

Missing

People say hey it'll never happen to me

Just goes to show how foolish people can be

I've been waiting all night for a sign from my baby

But he's

Missing

He's not coming through the door

He's not dialing the phone

He's not out on the dance floor

He's not walking home alone

He's just

Missing

He's not drugged or lost

Or trying to escape

He's not being raped

He's not in my arms

Looking in my eyes

Smiling for me

He's just

Missing

People say hey it'll never happen to me

Just goes to show how foolish people can be

I've been waiting all night for a sign from my baby

But he's

Missing
