

Run And Don't Stop

The Rocket Summer

Desert rain is falling
A southern cold July.
Do it or don't do it.
Don't wait forever for the right time.
Do it, run to it.
The tree bearing apple now bears a lime...

Run, don't stop it
Although I'm barely walking... suffering.
Run, don't stop it
I am the tarnished locket that holds you within.
Busted Bones I'm running.

Catalyst explosion
My horse stolen, my ride done.
Do it. Run to it.
Let them sit back and watch you

Run, don't stop it
Although I'm barely walking... suffering.
Run, don't stop
I am the tarnished locket that holds you within.
The day they stole the horse I started running.

Mug me, inspiration... take my apathy.

Run, don't stop it
Although I'm barely walking... suffering.
Run, don't stop
I am the tarnished locket that holds you within.

Sanity can keep its distance from me.
The day they stole the horse I started running...
