

Tell Me Something Good

The Rocket Summer

Hey what you got you don't know
Anything that I'm gonna say right now
Cuz I'm not so sure why I'm here and why I wanna
Keep on hanging 'round right now
Not that I do it now or any day
Sometimes I just get burned out
About lots of things and well just doubt

So tell me something good you got it
Why am I so misunderstood cuz I wanna know this
Cuz I'm confused and do I break in two
So tell me how about you

Hey what you got something bad and I want it
Even though I know it's wrong
But I won't be blessed cuz I know this so I can't have that
So like a JOB I gotta be strong
Man I don't wanna be able to breathe
Be able to see what's become
of the wars of this world
and the wars from my tongue

So tell me something good you got it
Why am I so misunderstood cuz I wanna know this
Cuz I'm confused and I bruise yes I do so tell me how about you
So please just tell me something good you got it
Why am I so misunderstood cuz I wanna know this
Come on baby and race me and maybe we'll just find ourselves

I wanna be, I wanna be like that mountain
I wanna stand taller and bigger than the rest
See I just wanna be it a guy who wins all the time
I wanna be a big star a king and rule my own life
God I know that it's wrong
So please just make my heart right
Inside destroy my pride

So you can tell me something good you got it
Why I am so misunderstood cuz I wanna know this
Cuz I'm confused and I bruise yes I do so tell me how about you
So please just tell me something good you got it
Why am I so misunderstood cuz I wanna know this
Come on baby and race me and maybe we'll just find ourselves

Hey what you got something bad and I want it
Even though I know its wrong
