All Sold Out

The Rolling Stones

Why put this sadness inside of me Why be so matter-of-fact Why put this one bit of hope in me You sold me out and that's that

I hope that you're having fun with me There's not much left to attack I hope that you're nearly done with me You sold me out and that's that

All sold out i'd never seen A mind so tangled, a girl so strangled All sold out well i felt so green It was just like that I was put down flat I was sold out just like that Oh baby

All sold out i'd never seen A mind so tangled, a girl so strangled All sold out well i felt so green It was just like that I was put down flat I was sold out just like that

I missed the point of you doing it Your mind has just jumped the track I took a bit different view of it You sold me out and that's that

Hey hey, that's that
