Already Over Me

The Rolling Stones

As you poured out the drinks for me I felt your hooks sink right into me And I knew you were my destiny And I thought you'd get the best of me

On the way down to Mexico
As I danced in your rodeo
You say poverty is picturesque
As you dragged your nails across my chest

You're so cold You're so cruel I'm your man Not your fool

Are you already over me Are you already over me Are you already over me What a fool I've been

In the first flush of ecstacy
As you lay maked next to me
While our love put the dawn to flight
I just ignore all those warning lights

Cause when you laugh I just cry When you left I just died

Are you already over me Are you already over me Are you already sick me What a fool I've been

Hard to hold on To a love divine I'm kneeling in a corner Praying to your shrine

I'm so hurt
So confused
I've been burned
I've been bruised

Are you already over me
Are you already over me
Are you already sick of me
Are you already over me
Are you already over me
Are you already tired of me
Are you already over me
What a fool I've been
What a fool I've been
What a fool I've been
