

# Champagne & Reefer

The Rolling Stones

Bring me champagne when I'm thirsty.  
Bring me reefer when I want to get high.

Give me champagne when I'm thirsty.  
Give me reefer when I want to get high.

Give me a woman when I'm getting lonely  
And set her right down here by my side  
Wait your turn

No, there should be no law  
on a man that want to smoke a little dope.  
Hey man, there should be no law  
on a man that want to smoke a little dope.

Yeah Everytime I get high  
I lay my head down on my baby's breast, yeah  
Everytime I get high  
I lay my head down on my baby's breast

Well you know she done hug and kiss me  
She says Buddy Guy you're the best.

I'm gonna get high this morning  
People get sure it's my name.  
I'm gonna get high this morning  
People get sure it's my name.

..... no cocaine

Give me champagne when I'm thirsty.  
Give me reefer when I want to get high.  
Give me champagne when I'm thirsty.  
Give me reefer when I want to get high.

Give me a woman when I'm getting lonely  
lay down by my baby side  
.....

Come on!

One more time  
One more time  
One more time

Give me a woman when I'm getting lonely  
lay down by my baby side

Well you know I lay down be quiet  
Tryin' to take my rest.
