```
Love comes at the speed of light
Love comes at the speed of light
Love comes in a strange disquise
Love comes
Open the door and let the light poour over
Open the door don't you keep me out
Open the door and let the light pour over
Hear me shout
Open the door and let the light poour over
Open the door don't you keep me out
Open the door and let the light pour over
Love comes at the speed of light
Love comes
It's as pure as silver
It's as pure as gold
It's a rushing river
Let it run all over me
It's as pure as silver
It's as pure as gold
Let is run all over me
Love comes
Love comes at the speed of light
```
