You offer me All your love and sympathy Sweet affection baby It's killing me 'Cause baby baby Can't you see How could I stop Once I start baby How could I stop once I start How could I stop Yeah yeah How could I stop once I start You look at me But I don't know what you see A reflection baby Of what I want to be I see your face And I want to roll with it But how could I stop Baby how could I stop How could I stop Stop it, stop it If I could, I'd take you all the way Baby, baby listen what I say There's even some things That I just would not pay 'Cause how could I stop If I start babe How could I stop If I start Start with you How could I stop If I start, baby How could I stop If I start with you It's too easy to lay here at your feet I couldn't take the heat There's somewhere else Maybe you should go Baby maybe baby just a further down the road How could I stop If I start with you baby How could I stop How could I stop Once I start

You tell me baby
Once I've started with you

How could I stop Once I start

Stop, stop, stop
