

I Got It If You Want It

The Romantics

You're just the girl I've always wanted
It's true, but you don't have a clue
If I get the chance to show you
I know you're gonna want me to
I get hot on the spot, I give up
You know, I got it if you want it
I got it if you want it
It hit me when I laid eyes on you
So fine, I had to make you mine
Good things really don't come easy
I'm waitin' 'til I get that sign
You get hot on the spot, I give up
You know, I got it if you want it
I got it if you want it
I got it if you want it
I got it if you want
Come a little bit closer
Listen to what I say
I won't do you no wrong, baby
I want you to stay, hey!
I've never been the one to worry
With you, it's so sad but true
I doubt it if you'll ever notice
Have I wasted all my time on you?
I got it if you want it
I got it if you want it
I got it if you want it
I got it if you want
I got it if you want it
I got it if you want it
I got it if you want it
I got it if you want
