

Make It Last

The Romantics

I been down out of my head
All I do is lose and never win
Everything you do to me
Better get in tune, can't you see?
I'm on hold, you leave me hot and cold
Thrill me down to my bones
When I'm in gettin' under your skin
Do anything I'm told
Make it last, gonna make it last
I try, try, try to keep you by my side
Now, girl, we're gonna make it last
I thought I found more than a friend
Would you believe everything you said?
That you were true, so true to me
Now I drown in my misery
Sweet and hot, honey, don't ya stop
With you, I'm satisfied
Goin' strong on you all night long
Gimme all you got
Make it last, gonna make it last
I try, try, try to keep you by my side
Now, girl, we're gonna make it last
It's been too good to throw away
Someone like you don't find every day
Right from the start, you stole my heart
It gets so hard to play the part
Sweet and hot, honey, don't ya stop
With you, I'm satisfied
Goin' strong on you all night long
Gimme all you got
Make it last, gonna make it last
I try, try, try to keep you by my side
Now, girl, we're gonna make it last
Make it last, gonna make it last
I try, try, try to keep you by my side
Now, girl, we're gonna make it last
Make it last, gonna make it last
Make it last, gonna make it last
Make it last
