Test Of Time

The Romantics

You're the one, now, I know it In time, I'm gonna show you Day by day, I pick myself up All alone and waiting for you

Take the key, set your heart free I've got the luck and soul, too

Test of time, it's just a test of time
I can stand the test of time
Test of time, I'll make believe that you're mine
And it's just a test of time

When you're around, can't deny it I'll always want you by me It might be long, forget the time Come to me girl, when you've waited

Test of time, it's just a test of time
I can stand the test of time
Test of time, I'll make believe that you're mine
And it is just a test of time

Side by side, is how we could be And I'm here, anticipatin' What can I do, you're just my kind With me, no chance you takin'

I do the time till we do love Shakin' hard and I'll be waitin'

Test of time, it's just a test of time
I can stand the test of time
Test of time, I'll make believe that you're mine
And it's just a test, a test of time

Test of time, it's just a test of time
I can stand the test of time
Test of time, I'll make believe that you're mine
And it's just a test, just a test of time

I don't mind, ooh Yes, it's true this heart'll keep on waitin' Now I know it, say it over and over Just a test of time
