

# Born To Be Together

The Ronettes

The moment I saw you, my heart knew it was forever  
You touched me & I swear I vowed then & there that I'd  
never  
No I'd never want somebody else to hold me  
Let another's arms enfold me  
Never never want nobody but you  
& then you kissed me & whispered tenderly  
"Darling I love you, I love you, I love you"  
& I knew we were born to be together  
We were born to be together  
Baby, we were born to be together

I never said a word, but I know you heard me sighin'  
You held me to your heart & I almost started cryin'  
Almost cryin': Baby, I'm so glad you found me  
Keep your lovin' arms around me  
Say you want me just the way I want you  
& then please kiss me & softly answer me  
"Darling I love you, I love you, I love you"  
I know we were born to be together  
We were born to be together  
Baby, we were born to be together  
Baby, we were born to be together  
...& fade
