

## Hold On To This Coat

The Rosebuds

So hold on to this coat  
If its hot and its heavy, but winter can be cold  
Hold me close by the water, one more time  
Imagine there's no orders tonight I dine  
Soon enough, the ladies will grow  
And your heart beat inside will start to show  
And the girls of the river will start to sing  
And the boys will dance once again

I never want to see you cold  
I just brought the winter to our home

I never want to see you cold  
I just brought the winter to our home

Sometimes late at night  
You hear the women singing this last goodbye  
Found my place by the water and wear this coat please  
Wrap it tight around you if winter shows her teeth

I never want to see you cold  
I just brought the winter to our home

So hold on to this coat  
So hold on to this coat  
So hold on to this coat  
So hold on to this coat
