

Walking

The Rosebuds

We go out walking everyday
Sometimes a leave in the afternoon
Sometimes we leave in the evening stew
We go out walking everyday

As long as your hand is in mine
It don't matter baby what we'll do
We'll be ok if it's raining soon
As long as your hand is in mine

And when the sun goes home
And the sky turns ours(?)
We'll keep on walking
And when the stars come out
And wake up the house
We'll keep on walking
Cause we'll be safe as one
No matter where we are
If we keep walking

We go out walking every morning
When the deer and the still is glowing
Oh, before the birds start tongue
We go out walking every morning
Oh, before the birds start talking
We'll go out walking every morning
