

## D-D-Dance

### The Royal Concept

In a room with both of your rivals  
You would always turn it around  
Once ya go, once ya get started  
Always had that look in your eyes

You would always reach without trying  
[?] out for love  
Watch me take my chances on the weekends  
You could always read me by heart

I know you're still green, but I'll start you a scene that you can write about  
When you come around  
I know you're still green, girl  
I'll start you a scene, girl

Always on the go, keep your head up now  
No, no not quite that high  
D-d-dance dance dance til' you get it right  
Always on the go, keep your head up now

You would be no shock just to heal up  
You would always question my kind  
Watch you go, watch how you go run off  
Watch you go, watch you get back

I know you're still green, but I'll let you go queen on these 25's  
Enough tonight  
I know you're still green, girl  
I'll let you go queen, girl

Always on the go, keep your head up now  
No, no not quite that high  
D-d-dance dance dance til' you get it right  
Always on the go, keep your head up now
