

## Come On Over

The Rubettes

I thought I new about the other side of life  
And I thought temptation was just another word  
I had it together, at school I knew it all,  
Ooh, ooh, ooh  
Cause I never read the lines they wrote upon the wall  
And into love I never thought I'd fall

But when I see you standing there  
The bright light of morning shining in your hair  
I wanna have you all to myself  
Make your life a whole lot better  
And I can set you free, come on over to me

I used to live upon the dark side of the street  
And I could hear the downtown highway thunder on  
I could break away, I'd hope for better days  
Ooh, ooh, ooh  
And I keeping myself from degradation just ain't easy  
Cause I couldn't find anyone to please me

But when I see you standing there  
The bright light of morning shining in your hair  
I wanna have you all to myself  
Make your life a whole lot better  
And I can set you free, come on over to me

But when I see you standing there  
The bright light of morning shining in your hair  
I wanna have you all to myself  
Make your life a whole lot better  
And I can set you free, come on over to me
