

For Ever

The Rubettes

You are my kind of girl
And I would like to show the world
you and me look so good together
Can you see us apart
(No never)
Youd could say we'll stay that way for ever

For ever
For ever

Let me know just how you feel
Deep inside show me it's real
All I want is something much better
Don't keep us apart
(Not ever)
Tell me true and I'll love you for ever

For ever
For ever

I won't be long
Before I have you in my arms
And I will love every part of you
Your lips and your body and all your charms
Let me know just how you feel
Show me now your love is real
You and me look so good together
Just give a try
(Come on now)
You can say that from today
I got you so it's OK
And I can see that you'll love me for ever
