

# Not Now My Dear

The Rubettes

Look at you my lover running down the lane  
I can see no reason why you should complain  
You gave me the come-on you said I'm the one  
When I yearn to kiss you, you turn from me and run  
And you say

Not here, not right here now love  
My brother might see our love  
My sister might be here love  
It's so hard to resist love

Not here, not right here now dear  
I think you should stop now dear, not now  
Not now my dear

Look at you my darling running thru' the fields  
Take a look behind you, I'm hot on your heels  
Lying in the long grass flowers in your hair  
When I go to touch you, you stand up and stare  
And you say

I do, I do, I do love  
I do love you, I do love

Let's wait 'til later when love  
Let's wait 'til we're in bed love

Not here, not right here now dear  
Stop nibbling on my ear dear, not now  
Not now my dear

Now the wedding's over we can have our fun  
Can't afford our own house have to live with Mum  
Me and my pyjamas you and your cold knees  
When I go to touch you all you do is freeze  
And you say

Not here not right here now love  
My mother might hear our love  
The bed might creak and crack dear  
And you might hurt your back dear  
How dare you ignore me

And put yourself before me  
Stop nibbling on my ear dear, not now  
Not now my dear.....
