

# Rock Is Dead

The Rubettes

Annie told Nat, she told Pat  
They all got together on the launderette  
She said oh oh  
We gotta take it slow  
I know they'll never get nothing to beat that rock and roll  
Other music just leaves me cold 'cos I got it down in my soul

Rock is dead but it won't lie down  
Shakes its head ant it sticks around  
They said that rock would fade away  
But I knew rock was here to stay  
And I told friends who told the town  
News like that soon gets around  
Rock and roll is dead but it won't lie down

Mama said stop, Dad blew his top  
When we all got together at the local hop  
I said oh oh  
You really just don't know  
'Cos there'll never be nothing to beat that rock and roll  
Other music just leaves me cold 'cos I got it down in my soul

Rock is dead but it won't lie down  
Shakes its head ant it sticks around  
They said that rock would fade away  
But I knew rock was here to stay  
And I told friends who told the town  
News like that soon gets around  
Rock and roll is dead but it won't lie down
