

# California Paradise

**The Runaways**

Turn up that radio  
Hear the rock and roll  
Malibu shines like summer gold  
Wild beaches  
In the salty wind  
California summers never end

California - you're so nice  
California - your paradise

The kids are ripping up the streets  
In their super cars  
All night parties and loud guitars  
Hot hot neighbourhoods  
Its the silver sound  
Wicked Hollywood goes round and round

California - you're so nice  
California - your paradise
