

Number One

The Rutles

Number one, number one
(Number one, number one)
You're my number one
(You're my number one)

You're my second to none
(You're my second to none)
Number one, number one
(Number one, number one)

One and one makes two
And I'll look after you
Number one, number one
(Number one, number one)
You're my number one
(You're my number one, ooh)

When I fell for you
I didn't need a shove
Now that we are two
It all adds up to love, to love

Number one, number one
(Number one, number one)
You're my number one
(You're my number one)

You're my second to none
(You're my second to none)
Number one, number one
(Number one, number one)

One and one makes two
And I'll look after you
Number one, number one
(Number one, number one)
You're my number one
(You're my number one, ooh)

My teacher couldn't teach me
And I had no time for school
No one there could reach me
But baby, I'm no fool, no fool

Number one, number one
(Number one, number one)
You're my number one
(You're my number one)

You're my second to none
(You're my second to none)
Number one, number one
(Number one, number one)

One and one makes two
And I'll look after you
Number one, number one

(Number one, number one)
You're my number one
(You're my number one, ooh)

Number one
