

## With A Girl Like You

The Rutles

Shoot me down in flames if I should tell a lie  
Cross my heart, I promise that it's true  
I've been in love so many times before  
But never with a girl like you

With a girl like you  
To hold and be beside  
With a girl like you  
To fill my heart with pride and joy

With a girl like you  
I know where I belong  
With a girl like you  
I know I can be strong

You know I won't bring you any pain  
I won't run around again  
There'll be nothing to explain  
With a girl like you

You know I won't bring you any pain  
I won't run around again  
There'll be nothing to explain  
With a girl like you
