Life's a savage circle Some people dedicated to ruin my life Life's a savage circle OK baby said you're allright

You think you know me well Well you can go to hell Your thick gives me a frown Well baby it's getting me down

Life's a savage circle Some people dedicated to ruin my life Life's a savage circle OK baby said you're allright

You wear that look of doubt Uncertainty is out
I wind up just like you
I hope I'm getting through

Life's a savage circle

Some people dedicated to ruin my life

Life's a savage circle

OK baby said you're allright

You think you know me well
Well you can go to hell
Your thick gives me a frown
Well baby it's getting me down

Life's a savage circle Some people dedicated to ruin my life Life's a savage circle OK baby said you're allright

You wear that look of doubt Uncertainty is out
I wind up just like you
I hope I'm getting through

I think you know, it's getting me down It's getting me down, Down down, Down
