

West One (Shine on Me)

The Ruts

Lights are burning red and white
Lost on an island in the night
Rescue me or here I'll stay
A traffic island castaway
Lost in a bar,
The silence only makes them straight.
Out in the dark and on my own (shine on me)
I'm stranded here with no way home (shine on me)
Glasses smashed production pain
It trickles down the drain
hot treat for sewer rats
you're like a rat when you get high
People falling on the floor
Or running out the door
Lights in the night burning red and white
Shine on me so I can see
Out in the cold out on my own
Shine on me so I can see, shine on me
Out in the dark and on my own
I'm stranded here with no way home (shine on me)
Lost in the dark, standing here alone (shine on me)
Out in the night, where traffic wardens roam (shine on
me)
On an island where you abandoned me (shine on me, shine
on me)
Lights are burning
Bright so I can see, (shine on me, shine on me)
Lights in the night, burning red and white (shine on
me, shine on me, shine on me)
Shine on me so I can see (Shine on me, shine on me,
shine on me)
etc
