

Enough To Stop A Heart

The Saddest Landscape

hit the lights sever this open wound
i'm tired of bleeding for you.
so just walk away.
this is our last kiss so kiss hard
does it still feel good
does it still shake with uncertainty
you can never really out run
the mistakes of your youth

this is our last goodbye so make it count
and was it enough to make you feel better
and was it enough to make you feel less alone
and was it enough to help you sleep at night
and was it enough to stop a heart.
and was it enough to stop.
to stop a heart.
