

Do the Robot

The Saints

Come on everybody and listen to Chris there's a great
new dance and it goes like this!

There's a great new dance that we're doin' down yonder

Come on everybody it's called doin' the robot

Your mother won't do it but your sister she will

Cmon little baby don't you know that you will

An' all the hot cats on the block have been doing it
too

C'mon now honey I wanna do it with you

Well come on, well come on, well come on

Let's do the robot

There's a great new dance that we're doin' down yonder

Come on everybody it's called doin' the robot

Your mother won't do it but your sister she will

Cmon now honey don't you know that you will

'Cause all the hot cats on the block have been doin' it
too C'mon now honey I wanna do it with you

Well come on, well come on, well come on

Let's do the robot

There's a great new dance that we're doin' down yonder

Come on little baby it's called doin' the robot

If your mother won't do it but your sister she will

Cmon little baby 'cause I know that you will

An' all the hot cats on the block have been doing it
too

C'mon now honey I wanna do it with you

Well come on, well come on, well come on

Let's do the robot

Come on and be a robot

I wanna be a robot

Nine thousand robots

See you're a one of them
