

Every Day's a Holiday, Every Night's a Party

The Saints

Night time, neon sign, synthetic grin
Fast cars, drag bars, ice in my gin
Discotheques were all the rage, dancing til two
Champagne and misery where are you?
Let's have another drink
Let's have another drink
Loud music, crowds grooving, drunk at the door
Life in the mirror cracked, sick on the floor
Coffee addict, automatic pistols were drawn
Be my suicidal heart-throb cest de l'amour
Let's have another drink
Let's have another drink
Everyday is a holiday and everynight it's party time
'Cause all the world is mine, all the world is mine
Night time, neon sign, synthetic grin
Fast cars, drag bars, ice in my gin
Discotheques were all the rage, dancing til two
Champagne and misery where are you?
Let's have another drink
Let's have another drink
Yeah yeah
Uh huh....
Lah dah de dah de dah...
