## **How to Avoid Disaster**

## The Saints

Here I am in a pyscopathic world trying to avoid disaster & cutting up tomorrow's papers Talking about all the change that's going to come & how to avoid disaster if it was easy you could ask me if it were mine I'd try..... Falling out the window full of drink in my head like a Jamaican festival baby thinks that I'm an animal Spend my time trying hard not to think no panic about the inevitable & if it was easy you could ask me if it were mine to decide I'd rather not be crucified..... Here I am in a pyscopathic world trying to avoid disaster & cutting up tomorrow's papers.....etc
