

# Imagination

The Saints

I know a place where we can go  
& I can take you there if you try  
imagination  
I know where we all belong  
& we can get back there if we try  
imagination  
you know what I mean  
come on let's dance  
I want to sing  
I want to set my soul on fire  
I can prove it  
going grooving  
just give me the madness & I'll be free....  
I know the sunny days are gone  
but we can get them back if you try  
imagination  
Not everybody like to sing  
but we can change their minds  
if you got  
imagination  
you know what I mean  
come on let's dance  
I want to sing  
I want to set my soul on fire  
I can prove it  
going grooving  
just give me the madness & I'll be free...
