

It's Only Time

The Saints

All my life I've wasted time
I looked outside to see the signs
lately I have realised
that it's in my mind
it's only a state of mind
Words become an endless stream
of nonsense thought
& nonsense dreamed
who am I to criticise
I am not that wise
or hypnotised
because it's only time.....
Empty words from an empty shell
what lives within I cannot tell
who am I to criticise
I am not that wise
or hypnotised
because it's only time.....
