

Lost and Found

The Saints

Ain't nobody tells me what to do now
I've heard all the lies & been promised the world
no business man is going to use or confuse me
'cause I ain't no puppet for his capital gain
What do get but exploitation
from creeps who are going to ignore your situation
Too many people getting pushed around
going to end up in the lost & found
They say I got to respect the system
but there ain't no respect in that system for me
you got to be satisfied & show no resistance
if you want to get to the top of that tree
What do you get etc etc...
They give you media minds to keep you satisfied
then take you brain away to appease & make you smile
